

SORBOLAX

FEED ACIDIFIER - BUFFERED DETOXIFIER

A life Saving Shield for Poultry

- Improve Gut health
- Improve FCR
- Improve Absorption

SORBOLAX FEED ACIDIFIER BUFFERED DETOXIFIER

COMPOSITION:

Each 1 liter contains:

Sorbitol.....	10 000 mg	Sodium Formate.....	77 000 mg
Threonine.....	3 000 mg	Lactic Acid	40 000 mg
Lysine.....	6 000 mg	Ortho Phosphoric Acid	35 000 mg
Methionine	10 000 mg	Copper Glycinate	2 5000 mg
Arginine	10 000 mg	Selected Yeast Cell Walls.	50 000 mg
Citric Acid.....	20 000 mg	(Saccharomyces Cerevisiae)	
Potassium Citrate	25 000 mg	Beta Glucans	12 500 mg
Propionic Acid	100 000 mg	MOS	10 000 mg
		Excipient up to.....	1000 ml

SORBITOL PREVENTS CELL DAMAGE

- Threonine acts as a nutritional modulator that influences the intestinal immune system
- Lysine is one of the most vital amino acids required in poultry nutrition
- Citric Acid promote growth by acidifying gastrointestinal contents
- Potassium citrate is effective in reducing Cephradine residues
- Propionic acid inhibits the growth of mold and some bacteria
- Ammonium propionate is a fungicide and bactericide
- Sodium formate improves nutrient digestibility
- Lactic acid has antagonistic activity against enteric pathogens.
- Copper supports immune function, bone strength, iron metabolism
- Beta-glucans can stimulate the immune system of poultry, including the adaptive immune system
- Yeast cell walls (YCW) are a common feed additive in poultry that can improve animal health and performance
- Etheric oil(Eos) are aromatic components of herbs and spices that have antimicrobial, antifungal, antiparasitic.

INDICATIONS:

Sorbolax is a cocktail for broiler health. It is combination of organic acid and as well as salts. It cures intestinal disorders positively and prevent from toxic effects of all kinds of toxins.

Sorbolax is liquid toxin binder that binds the toxin as well as fungus.

Sorbolax regulate renal activity.

Sorbolax promote growth by acidifying gastrointestinal contents.

Sorbolax inhibits the growth of mold and some bacteria.

Sorbolax is a fungicide and bactericide.

Sorbolax supports immune function, bone strength, iron metabolism.

Sorbolax can stimulate the immune system of poultry, including the adaptive immune system.

Sorbolax are common feed additive in poultry that can improve animal health and performance.

Sorbolax contains aromatic components of herbs and spices that have antimicrobial, antifungal, antiparasitic effect.

ADMINISTRATION AND DOSAGE:

Preventive dose:

1 ml/4 liter of drinking water. Treatment: 1 ml/ 2 liter of drinking water.
